# Academic Regulations for B.Tech Programmes 2026

### 1. Scope

These regulations apply to all students admitted to the four-year B.Tech programme from the academic year 2026-27 onwards. Where a department notice conflicts with these regulations, the student should contact the Office of the Controller of Examinations.

### 2. Attendance Requirements

A student must secure a minimum of 75% attendance in each course to be eligible to write the end-semester examination of that course. Attendance is calculated from the first instructional day to the last instructional day of the semester.

Condonation: a student with attendance between 65% and 75% may apply for condonation on medical grounds by submitting a medical certificate from a registered medical practitioner to the Head of Department within 7 days of returning to classes. A condonation fee of Rs. 500 per course is payable. Condonation can be granted at most twice during the programme.

A student with attendance below 65% in a course is not eligible for condonation and must re-register for the course in a subsequent semester.

# 3. Examination Eligibility and Assessment

### 3.1 Eligibility for end-semester examinations

To be eligible for the end-semester examination a student must (a) satisfy the attendance requirement in Section 2, (b) have no pending library dues, and (c) have registered for the examination through the student portal before the published deadline.

### 3.2 Internal assessment procedure

Each theory course is assessed out of 100 marks: 40 marks of continuous internal evaluation (CIE) and 60 marks in the end-semester examination (ESE). The distribution of internal marks is shown in Table 1.

| Component | Marks | Conducted in |
|---|---|---|
| Internal test 1 | 15 | Week 6 |
| Internal test 2 | 15 | Week 12 |
| Assignments / quizzes | 10 | Throughout semester |
| End-semester examination | 60 | After week 16 |

Table 1: Distribution of marks for theory courses.

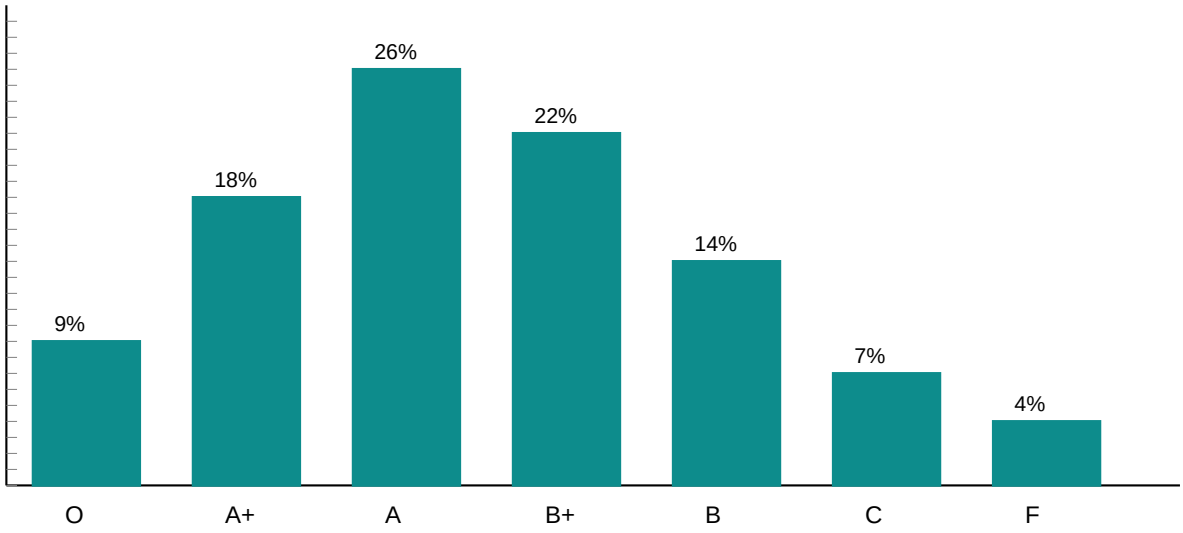
A student must obtain at least 40% in the ESE and at least 50% in the aggregate of CIE and ESE to pass a course.

## 4. Project Work and Submission

Final-year project reports must be submitted to the department in two hard copies and one soft copy (PDF). The project submission deadline is two weeks before the start of the end-semester examinations. Late submissions attract a penalty of 10% of the project marks per week of delay.

**5. Grade Distribution (previous year)**

Figure 1: Distribution of final grades across all B.Tech courses in 2025-26.



The most common grade was A (26% of students); 4% of grades were F.
